

SAIL ON, OH SHIP OF STATE.

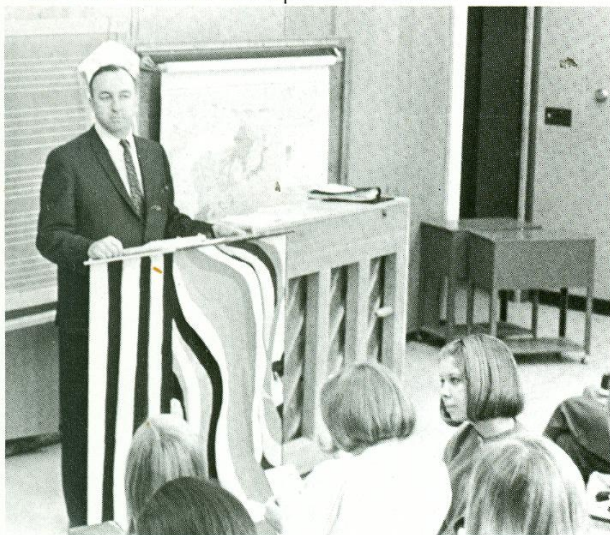

Social Problems—Where ignorance is Bliss.

History and sociology classes, discussing various problems and philosophies of life, past, present, and future, help the student to better understand the complicated world in which he lives.

The sophomores, delving into their "story books," attained a greater knowledge of our American heritage. Meanwhile in World History, the Juniors were confronted with the attitudes of man in past ages, and new concepts of government. Under the direction of H.H.H.Ltd. (Hoff, Harmon, Heltzer) the seniors completed a thorough study of the capitalistic system, foreign aid, the race problem, and the political structure of the U.S., and Mr. Harmon's escapades in Russia.

The students, in order to gain a more complete picture of the ideas and problems of today, have formed a World Affairs Club. The advisors are Mr. Hoff and Mr. Harmon.

Would you like to try lecturing in front of this class?

American History encompasses all phases of life.
